Is accounting for your business time consuming and difficult?

Whether you're a sole trader or represent a publicly listed company, IAG will help you accurately account for your business. IAG will assist with the establishment of accounts and controls, provide guidance on the effective use of your accounting software and ongoing support including book keeping services (in your office or ours) and preparation of your financial statements.

Is your business performing as well as it could be?

IAG has a wealth of experience in helping businesses improve their performance and profitability and can assist you with financial analysis and consulting, management accounting tools, cash flow management and forecasting, refinancing, bank submissions and general business advice.

Is your business structured for success?

In growing your business, it's impossible for you to be the entrepreneur, business manager, financial controller and process worker. IAG has extensive experience in the establishment / restructuring of businesses including sole traders, family and discretionary trusts, unit trusts and company structures. IAG will work with you to gain an understanding of your operations, ensuring a solution that will increase efficiency and achieve the best possible tax position for your business.

Does your business have a succession plan?

Whether it's a planned exit, or brought about by unforeseen tragic events, business succession is overlooked by many until it's too late. IAG will work with you to create a plan for the succession of your business to ensure maximum wealth is created and transferred to the right people or entities.
